REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest all of the limitations of the allowed claims. Newly found reference Grigoropoulos, et al. (US 2003/0003636A1), for example, discloses a method in which a first beam melts a portion of a layer and a second laser beam heats the same area and further completely melts it(paragraph 0006), while the allowed claim 19 recites "exposing ...to a continuous optical source at a fluence that is insufficient to even partially melt the silicon film by itself". In addition, the limitation "exposing a localized substrate region at the substrate surface to a laser heating source", as the first pulse is delivered to the layer through the transparent substrate(paragraph 002), although mention is made of preventing excessive heating of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caridad M. Everhart whose telephone number is 571-272-1892. The examiner can normally be reached on Monday through Fridays 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew S. Smith can be reached on 571-272-1907. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
